Leicestershire Highway Works*

Product Contracting Services, Community Engagement
Client Leicestershire County Council (LCC)
Main Contractor Tarmac Contracting
Location Leicestershire County
Timescale January 2008 - Present

THE CHALLENGE

Tarmac Contracting has been working in partnership with both LCC and Leicestershire Highways Organisation (LHO) on the LHWA since the beginning of 2008. As part of our works with LHWA we have sponsored and worked on many community based projects.

OUR SOLUTION

The LHWA is unique in that Tarmac is located with partners from LHO at their Croft depot. This has been successful in integrating the staff into the LHWA and allows knowledge sharing between both partner organisations. Through our involvement with LHWA we have supported various community initiatives from a new activity play trail at the Watermead Park to school activities at the Ashby De La Zouch school whereby we helped children there survey their playground.

RESULTS AND BENEFITS

Tarmac are a sponsor of the LCC's 'Taking to the Roads' exhibition. This gives the people of Leicestershire the chance to interact with industry figureheads and learn about the history of road building and maintenance in the local area. Tarmac also played an integral role in the construction of a much needed footpath for the benefit of the local community, running from the outskirts of Stoney Stanton village and connecting with the existing footpath on the B4669. Due to budget constraints we offered to supply raw materials along with the roller to lay the pathway as well as a supervisor and a foreman to help out on the site. Upon completion an opening ceremony was held by Councillor White with the whole team involved receiving his thanks.
