

# Dry Silo Mortar

## Natural Colour Range

**We have a range of natural DSM mortar colours that we supply unique to each DSM manufacturing plant**

Each DSM plant has its own recognised 'Y' reference natural colour to easily identify and distinguish which plant supplies that natural colour

All our DSM naturals are factory produced to ensure colour consistency batch after batch, this in addition to our selection of 50 shades of coloured mortars, we provide our customers with the highest standard of colour

Tarmac offers limitless creativity when it comes to making buildings look unique whether you're using our coloured range of mortar or our natural DSM colours

Guaranteed no fade or wash out quality

**The natural colours referenced in this document are a representation and are for guidance**

### Leeds

Y56 ROUGH | Y56 SMOOTH

### Coventry

Y57 ROUGH | Y57 SMOOTH

### Colchester

Y58 ROUGH | Y58 SMOOTH

### Stoke

Y59 ROUGH | Y59 SMOOTH
