

ULTIPHALT HD

The ultimate tougher asphalt

ULTIPHALT HD

The ultimate tougher asphalt

Using proven SMA technology and an advanced modified binder, ULTIPHALT HD has been specially designed to offer long term durability and performance in challenging locations.

ULTIMATE RESISTANCE

High grade aggregates and a modified binder facilitate excellent compaction and strong aggregate interlock, thereby providing enhanced resistance to deformation and turning stresses from heavy vehicle movements.

PROVEN PERFORMANCE

A 10mm product laid 40mm thick, ULTIPHALT HD is proven to deliver lasting performance in the most challenging environments, including lorry parks, ports and distribution centres.

EXCEPTIONAL CONTROL

Our stringent quality control processes, from design, to laying, ensure exceptional control over the quality and consistence of finished asphalt surfaces.

ULTIMATE SUPPORT

At Tarmac, technical excellence comes as standard. ULTIPHALT HD is available for installation by accredited contractors or by our own expert Contracting division who evaluate each site to ensure our clients get the right solution and then deliver it to the highest industry standards.
