

TRUTONE

Setting the tone in coloured mortar

Y-reference shade guide

Coloured mortar

With a history of coloured mortar dating back to the 1930's and a choice of more than 50 colour shades Tarmac offers unrestricted creativity when it comes to making buildings that little bit different.

Our recognised 'Y' reference colours are factory produced to ensure colour consistency batch after batch, with the added benefit of using 100% synthetic iron oxide pigments for a guaranteed no fade or wash out quality.

We provide our customers with the highest standard of colour

100% synthetic iron oxide for no fade

Consider colour

- **Milky-Grey** - Y101 - according to availability of local white sand or pigment
- **The three shade variations are listed:** Light - Medium - Dark, e.g. Y4 is a Light Black-Grey, Y2 is a medium Black-grey and Y14 is a Dark Black-Grey.
- **100% synthetic iron oxide pigments** - no fade or wash out.
- **Colour matching** available tarmac.com/products/mortar/coloured-mortar-trutone/
- Dry silo mortars, lime sand mortars and dry ready to use bags are available in all the displayed colours
- Other colours may be considered dependent upon order quantities

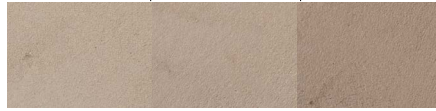

The colours referenced in this document are a representation and are for guidance only. To ensure we supply the colour you require request a sample bag before you order
