ULTICOLOUR

The ultimate BBA HAPAS approved coloured asphalt

Tarmac ULTICOLOUR is a range of coloured asphalts that combine a clear polymer modified binder, with a selected pigment and complementary aggregate to produce a range of vibrant, long lasting coloured surfaces. It is now BBA HAPAS approved for use on UK highways.

ULTIMATE CHOICE

Available in a wide range of colours, ULTICOLOUR offers architects and urban planners an exceptional choice of colours and finishes.

IMPROVED SAFETY

Coloured asphalt surfaces play an increasingly important role in road safety, offering improved visibility in high risk or low light environments.

LASTING COLOUR

High quality, colour matched aggregates ensure a longer lasting finish that resists surface wear and keeps its appearance for longer.

ULTIMATE QUALITY

Our network of UK quarries and specialist production facilities give us exceptional control over quality standards for consistent colours and finishes.

ULTIMATE VERSATILITY

ULTICOLOUR is available as a 6mm, 10mm and 14mm size SMA surface course for a wide range of applications. ULTICOLOUR technology can also be utilised to supply coloured porous asphalt and coloured pre-coated chippings.

LOWER MAINTENANCE

ULTICOLOUR has a monolithic finish that provides a long lasting, safe, trip free surface. It has a proven record of long lasting durability on UK roads.

ULTIMATE SUPPORT

At Tarmac, technical excellence comes as standard. ULTICOLOUR is available for installation by accredited contractors or by our own expert Contracting division who evaluate each site to ensure our clients get the right solution and then deliver it to the highest industry standards.
